

OLSTOLEN - 5,2 km round trip

The view from the Olstolen is fantastic - overlooking large parts of the fjord and the surrounding areas. The walk goes along a nice tractor path. Steep path the last 200 meters.

It is signposted "privat veg/private road", so show consideration when parking at the start of the trail. Close the gates as there are sheep on pasture! Keep dogs on a leash.

Olstolen has an interesting history, which can be read on arrival - we mention St. Olav

Parking can be difficult, park your car well to the side of the road.
